

European School of Interventional Radiology (ESIR) Introduction to Peripheral Interventional Procedures – Hands-On Course June 1-2, 2010 Crossroads Institute, Diegem, BE

Application for CIRSE Members only!

Get a 700 EUR refund for travel and hotel expenses for the Hands-On Course in cooperation with the Crossroads Institute.

Course Convener: M. Sapoval (FR)

Educational Programme Director: Dr. L. Stockx (BE)

Objective of this course:

- To review the various techniques and discuss the advantages and limitations of interventional procedures in treating peripheral vascular and renal artery disease.
- Overview of iliac, SFA & renal angioplasty/stenting.
- Focus on techniques and use of materials with an update on the latest treatment options.

Requirements for Interventional Radiologists from Europe and the Middle East:

CIRSE Members only!

In order to be eligible for the course you need to be a CIRSE member and fulfill the following criteria:

- Work in a department which offers interventional procedures as a treatment to patients and will spend 1/3 to 1/2 of time performing endovascular procedures
- Work in a department starting up an interventional program within the next 3 months after the course program and will spend 1/3 to 1/2 of time performing endovascular procedures
- Experience performing diagnostic angio procedures as a plus
- Have only limited experience with endovascular procedures and/or assisted at procedures

Interventional Radiologists interested in attending this course are requested to apply by registering through the CIRSE website (www.cirse.org). We kindly ask you to arrange flight and hotel accommodation by yourself but you will be reimbursed against original invoices afterwards (max. of 700 EUR per person). The course is limited to 12 participants, early application is therefore recommended.

Abbott has reserved rooms at the Holiday Inn at favourable rates. In case of approval please get in touch with us for the reference code.

Tuesday, June 1, 2010

- 11:00-11:15 Welcome & Introduction to Crossroads Institute
- 11:15-11:30 **Introduction to the peripheral interventions course** (*M. Sapoval*)
- 11:30-12:00 **Clinical indications for peripheral artery interventions** (*M. Sapoval*)
- 12:00-12:45 **Wires, catheters and stents used during iliac/SFA intervention** (*F. Fanelli*)
- 12:45-13:45 Lunch
- 13:45-14:30 **Wires, catheters and stents used during renal intervention** (*M. Sapoval*)
- 14:30-16:00 **Clinical Case Review 1 - Focus on interventional strategies – decision making process – renal artery cases** (*M. Sapoval, F. Fanelli*)
- 16:00-16:15 Coffee Break
- 16:15-17:00 **Prevention & treatment of complications in peripheral and renal artery interventions** (*F. Fanelli*)
- 17:00-18:30 **Clinical Case Review 2 - Focus on interventional strategies – decision making process – SFA/iliac** (*M. Sapoval, F. Fanelli*)
- 18:30-18:45 Final remarks & take-away messages from Day 1
- 20:00 Welcome Dinner**

Wednesday, June 2, 2010

- 08:30-09:15 **Product overview – IFU** (*M. Sapoval, F. Fanelli*)
- 09:15-12:00 **Practical Hands-On Workshops**
- Cath Lab: Group 1: Faculty
 - Virtual Reality: Group 2: Crossroads team & faculty
- 12:00-12:45 Lunch
- 12:45-15:30 **Practical Hands-On Workshops**
- Virtual Reality: Group 1: Crossroads team & faculty
 - Cath Lab: Group 2: Faculty
- 15:30-16:00 Conclusions, evaluations and ESIR voluntary test

LECTURE DETAILS

Clinical Indications for Peripheral Artery Interventions

M. Sapoval (FR)

- Clinical symptoms, Leriche classification
- Critical limb ischemia: what does it mean and how it is different

Wires, catheters and stents used during iliac/SFA interventions

F. Fanelli (IT)

- Standard Procedure Techniques
- Practical introduction to products
- how to use tools

Wires, catheters and stents used during renal artery intervention

M. Sapoval (FR)

- Standard Procedure Techniques
- Practical introduction to products
- how to use tools

Clinical case review (renal and SFA)

M. Sapoval, F. Fanelli

- how to do the procedure
- how to build an interventional procedure strategy
- Decision making process

Prevention & treatment of complications in peripheral and renal artery interventions

F. Fanelli (IT)

Discover and practice on VR machine

M. Sapoval, F. Fanelli, Crossroads team

- how the simulator is made and works
- tips and tricks for better use of the simulator (how to use material, how to choose a case, how to use metrics ...)
