ESIR 2019

Prostate Embolisation, Paris/FR, March 7-8, 2019

JOIN US FOR THE CIRSE MEMBERS EVENING

This year's CIRSE Members' Evening on the occasion of ECR will take place on Thursday, February 28, 2019 at the breath-taking ThirtyFive tower boasting stunning 360° panoramic views of Vienna. Don't miss this great opportunity to catch up with your CIRSE friends from around the world! As this event has limited capacity, we ask you to complete the RSVP form and send it to the CIRSE Office by February 13.

Share your knowledge at CIRSE 2019!

Become part of the world's biggest IR meeting by submitting your abstract for CIRSE 2019! Submission will be accepted until February 11 in the categories scientific, educational and case report.

CIRSE Junior Members submitting an abstract for CIRSE 2019 as a first or presenting author are eligible for the IR Trainee Support Programme granting free registration to the congress. Make sure to submit your work today!

PAE course featuring simulation training

In this year's ESIR course on PAE, the theoretical part will be complemented by two live cases moderated by expert panellists. Additionally, participants will be able to improve their skills on the latest prostate embolisation simulators. To stimulate multidisciplinary cooperation, CIRSE is offering a discounted team rate to IRs who attend the course with a urologist from their hospital. Early bird registration ends on January 24, so make sure to register today!

New CIRSE Registry on microwave ablation of liver metastases

CIRSE is proud to announce that CIEMAR, the CIRSE Emprint Microwave Ablation Registry, has been launched and that first centres identified to be suitable for participation have been contacted. CIEMAR is currently being designed by a multidisciplinary steering committee and is planned to enrol the first patient in the beginning of 2020. Find out more!

[CVIR Endovascular – new article on TAE in haemorrhagic pelvic injury](#)

Pelvic embolization in trauma makes a huge difference in patient's lives: It is instantly life-saving, as no valuable time is lost compared to surgical packing. Read this review of management and mid-term outcome of a major trauma centre in CIRSE's open access journal CVIR Endovascular!

Apply now to run for CIRSE office in 2019

Eligible members who wish to run for CIRSE office can now apply for the positions in the Executive Board, Executive Committee and Standing Committees. Please note that only CIRSE Fellows are eligible for Executive Board, Executive Committee and Committee Chairperson positions. Find out more about the eligibility criteria and how to apply!

IR Trainee Support Programme - Attend CIRSE 2019 free of charge!

CIRSE Junior Members and IRs-in training who submit an abstract as a first or presenting author for CIRSE 2019 will once again be eligible for the IR Trainee Support Programme granting free registration to the congress. Don't miss out!
