

WHERE THE WORLD OF IR MEETS

Barcelona, Spain
September 7-11

CIRSE 2019

LEARNING CENTRES AT CIRSE 2019

Get hands-on practical experience with the leading technologies at the Learning Centres offered at CIRSE 2019! Sessions will delve into important topics related to the various companies' devices materials while offering participants the opportunity to deepen their knowledge in a hands-on setting. Not to be missed!

CIRSE 2019 accredited with 34 CME credits

CIRSE 2019 has been accredited with 34 European CME credits (ECMEC@s) by the European Accreditation Council for Continuing Medical Education (EACCME®). Use the Programme Organiser to browse the comprehensive programme and put together your personalised conference schedule!

CIRSE 2019 Dinner and Farewell Party

Finish the IR conference of the year in style with a three-course dinner and dancing into the morning hours at the CIRSE 2019 Dinner and Farewell Party! Tickets for both the dinner and party or the party only can now be purchased online. Don't miss out!

Radiation Safety Talks at CIRSE 2019

The 2019 Radiation Protection Pavilion's Radiation Safety Talks will give attendees the opportunity to freshen up their knowledge on how to reduce radiation exposure. Additionally, the RPP will let interested physicians explore the latest products for radiation protection and dose management.

Secure your accommodation for CIRSE 2019

Make sure to use CIRSE's official travel partner Kuoni for a wide range of beautiful hotel rooms near the Barcelona Convention Centre at competitive prices! The easy-to-use booking system will let you browse all options and carry out your booking hassle-free.

Relive ET 2019

Relive CIRSE's fantastic first European Conference on Embolotherapy – ET 2019 – in this video. All ET 2019 sessions can be watched on demand in the CIRSE Library. Don't forget to mark your calendar for ET meets GEST 2020 taking place in Vienna, June 24-27!

Three new CIRSE Academy courses available

The CIRSE Academy now features new courses on EVAR, PVMs and the treatment of acute and chronic DVT. Each of the Academy's 26 courses only takes up to 2 hours to complete and allows you to earn 1-2 CME credits! CIRSE Members enjoy highly reduced fees.

Impact Factor for 2018

CVIR's impact factor for 2018 has been announced as 1.928, reflecting the average number of citations received in 2018 of articles that were published in 2016 and 2017. Although this is a lower impact factor than in 2017, the continued hard work of our Editors and the Editorial Board is sure to result in an increase in the years to come.

One year since the first publication

CVIR Endovascular is proud to have reached 50 article publications and 8 citations with more than 13,200 article downloads. We would like thank all our authors for their contributions thus far! Don't miss CVIR Endovascular's newest articles – they are all freely available to read, share and download.
