

Munich, Germany
September 12-16
CIRSE 2020

ABSTRACT
SUBMISSION
NOW OPEN!

SUBMIT YOUR ABSTRACT FOR CIRSE 2020!

Sharing your scientific findings and educational material at the CIRSE Annual Congress will give you the opportunity to showcase your work to the world's leading experts as well as IR's next generation. Both educational and scientific work as well as case reports can be submitted.

Accepted abstracts will be published in the online programme organiser, the congress app and the book of abstracts released as part of CIRSE's official journal, CVIR. Both oral and poster presentations will also be made available online in the CIRSE Library during and after the congress.

Free CIRSE 2020 registration for young IRs

CIRSE junior members submitting an abstract as a first or presenting author can now apply for free congress registration through the IR Trainee Support Programme. Don't miss this opportunity! Make sure to submit an abstract and apply for the programme!

ET preliminary programme now online

The preliminary programme for ET 2020 is now online, providing a first glance at what's in store at the second European Conference on Embolotherapy taking place in Vienna from June 24-27. Register for the congress now and save up to 53% with the early bird fee!

Take your colleague to ECIO 2020 free of charge

Looking for that perfect Christmas gift for the tumour board colleague in your life? Take him/her to ECIO 2020 to spread knowledge of what interventional oncology can do for patients! Registration and travel expenses are covered by the Collaborating against Cancer Initiative programme.

JR Foundation Travel Grant

The Jim Reekers Foundation is providing travel grants of up to €500 for IRs in training to attend the International Conference on Complications in Interventional Radiology – ICCIR 2020 – taking place in Pörtlach, AT from June 4-6. Apply now!

Two new courses available

It has been a year since the launch of the CIRSE Academy! To celebrate the occasion, it has launched a new basic course on TEVAR and its first specialist course on clinical practice in endovascular intervention. CIRSE members benefit from highly reduced rates.

New topic package on EVAR

Browse the CIRSE Library's newly released topic package on the latest developments in EVAR compiled by Raman Uberoi, including lectures, an expert video and further reading on the topic! CIRSE members can access all content free of charge.

New CIRSE SOP on PAE

The newest CIRSE standards of practice document focuses on PAE as an effective and minimally invasive method for treating symptoms related to benign prostatic hyperplasia. Enjoy free access to the paper published in CVIR for the next six weeks!

IR News winter edition out now

Read up on all CIRSE events and initiatives in the latest issue of the society magazine, including a CIRSE 2019 review, an update on the CIREL, CIEMAR and CIRT-FR registries and introductions to CIRSE's newest group members, AAFIR and the Philippines.

CVIR print on demand for 2020

In addition to your complementary online CVIR access as a CIRSE member, you can receive the journal in print at the highly reduced rate of 74€ for the 12 issues in 2020. To place your order for a 2020 print subscription, please log into the myCIRSE area.

15% APC discount for CIRSE Members

To help reduce the financial costs for authors, CIRSE is now offering a 15% discount on the CVIR Endovascular article processing charge to corresponding authors who are CIRSE members in good standing. Simply contact the CVIR Endovascular editorial team at info@cvirendovascular.org!

Add your 2020 event!

If you have a congress or course of interest to our community coming up, make sure to add it to the event calendar on the CIRSE website to let people know!

Remembering Prof. Amplatz

The IR world lost one of its founding fathers last month with the passing of Prof. Kurt Amplatz at the age of 95. Read about the life, work and legacy of a remarkable man, as told by the colleagues who knew him best.
