CIRSE aims to improve ethical, technical and material conditions in interventional radiology to advance the field and enhance patient care.

CIRSE provides continuing medical education and training for Healthcare Professionals with an active personal involvement and interest in interventional radiology.

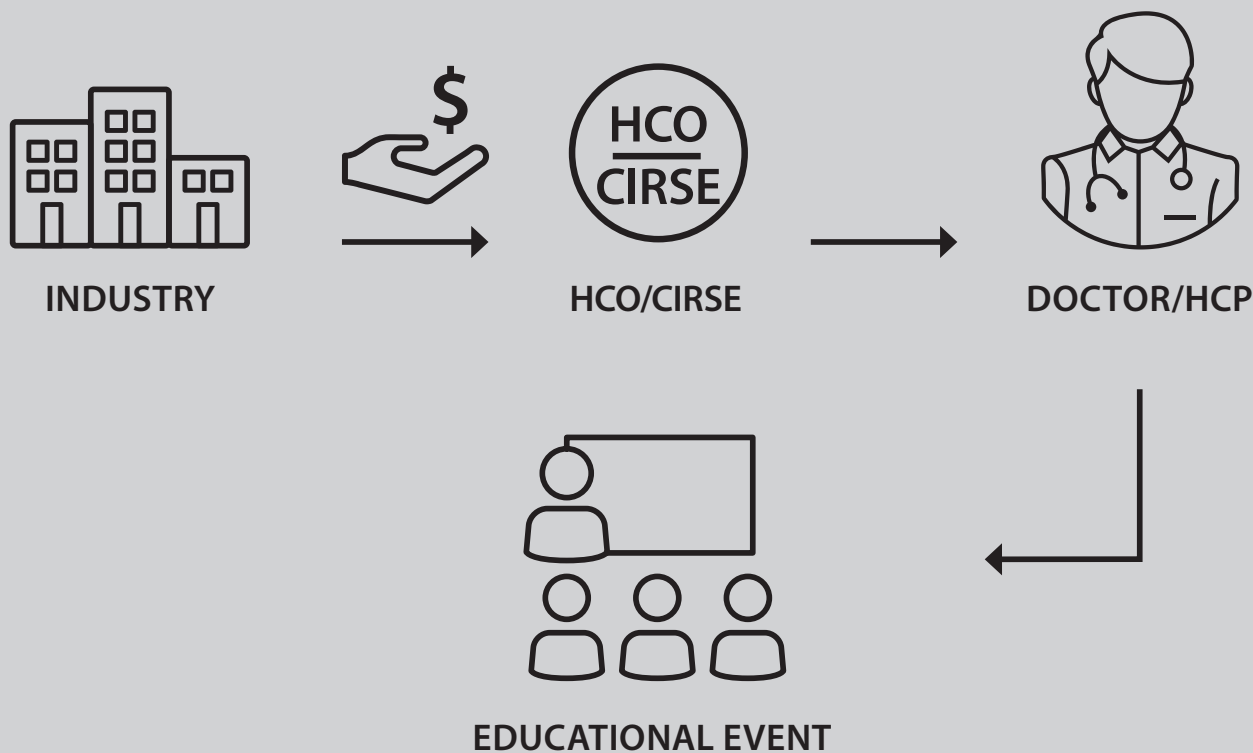

The continuous interaction between Healthcare Professionals, Healthcare Organisations and the Medical Device Industry is important for the safe, innovative and reliable use of medical technology.

The Financial support from the Medical Device Industry for unbiased medical education organised and provided by Healthcare Organisations remains fundamental.

With the introduction of the new MedTech Code of Ethical Business Practice direct sponsorship is no longer possible and funds are now to be provided to impartial Healthcare Organisations.

With a proven track record of successful grant administration, CIRSE is uniquely placed to manage and administrate educational grants.

# Why work together with CIRSE?

CIRSE is the world's largest community in the field of minimally invasive, image guided procedures and interventional radiology.

Healthcare Professionals attending a CIRSE event benefit from the highest quality of medical education available.

CIRSE as an organisation ensures the most compliant and unbiased distribution of support.

Corporate partners providing Educational Grants benefit from a dedicated team and established infrastructure at the CIRSE Office to ensure professional grant handling and management.

In accordance with the MedTech Code of Ethical Business practice, the HCO/CIRSE remains solely responsible for the selection of the individual HCP and the correct distribution of the Grant funds.

The company may provide the criteria for the selection of the Educational Grant recipients and/or pre-select institutions that shall be invited to submit an application.

# Your support is requested!

Help us to provide continuous medical education by supporting Healthcare Professionals attendance at CIRSE events.

CIRSE kindly requests your support.

To receive further information on CIRSE Educational Grants, please provide us with basic information by completing the Contact and Enquiry Form.

[Contact and Enquiry Form](#)

Our team will contact you with additional information and a non-binding basic Educational Grant proposal for your further consideration.

CIRSE Educational Grants are carried out in compliance with the MedTech Europe Code of Ethical Business Practice.

**BE A PART OF SUPPORTING EDUCATION AND INSPIRING INNOVATION**
