

European Conference on Embolotherapy

ET2021 ON DEMAND

MASTERING EMBOLISATION - REACHING NEW HORIZONS

ET 2021 AVAILABLE ON DEMAND

The European Conference on Embolotherapy which took place from June 17-19 was a rousing success, attracting interventional experts from around the globe to come together and discuss the latest developments in embolisation treatments. The more than 100 lectures will continue to be available on demand via the congress platform until August 31, after which registrants will be able to view them via the CIRSE Library.

The seven satellite symposia presented by CIRSE's corporate partners can be viewed free of charge by all interested parties, making it easier than ever to stay up to date on the latest in embolotherapy materials and devices.

CIRSE 2021 programme and registration now available

The CIRSE 2021 Summit will feature everything interventional radiology has to offer; established therapies to new applications, hot topics and of course the latest research. More than 100 live sessions featuring 270 presentations will be streamed on four channels throughout the congress days. Start browsing the programme and secure your spot today to save up to 45% in registration fees!

Free webinar on Complex mechanical atherothrombectomy

Join us for this free webinar in which distinguished experts will discuss their approaches to dealing with extremely challenging RotarexTM Rotational Atherothrombectomy System cases in which they faced complex or unexpected situations. Attendees will be able to comment and share their experience on how such situations are managed in their daily practice. Not to be missed by anyone working in this field!

Topic package: Desmoid tumours

Desmoid tumours are primarily benign, yet infiltrative and locally aggressive growths with a high recurrence rate. Although they constitute less than 3% of soft tissue tumours, the demand for minimally invasive treatment of desmoid tumours continues to grow. Browse this topic package for a selection of lectures and further reading which will let you gain an understanding of the basic concepts of the available IR techniques applied in this area.

Newly accredited courses available

After a recent update by renowned specialists, four CIRSE Academy courses are again available including CME accreditation. Covering topics in arterial intervention, embolisation and interventional oncology, the courses are available for €25 to CIRSE members and €55 to non-members. Browse these and other courses to find what best suits your interests and educational needs!

Focus on radiation protection

CVIR guest editor Prof. Werner Jaschke has curated a collection of articles on radiation protection which endeavours to provide essential information on how to keep patients and operators safe from unnecessary radiation. Browse the collection to make sure you are up to date on this important topic!

Enter your paper for a chance to win!

Do you have a paper on embolisation in the pipeline? CVIR Endovascular is offering two APC waivers for outstanding papers on this topic. Simply send your abstract to info@cvirendovascular.org by June 30 for a chance to get your research published open access free of charge!

Call for ESIR course hosts

The European School of Interventional Radiology is back and will return to providing in-person educational courses in 2022! Apply by July 1 to host an ESIR course at your institution to present your expert centre and help provide an outstanding educational opportunity to the IR community!

Cooperation with IAEA

CIRSE's Radiation Protection Subcommittee is partnering with the International Atomic Energy Agency (IAEA) to develop education and training materials on radiation protection. Watch the individual tutorials prepared by the IAEA Radiation Protection of Patients Unit free of charge!

It's not too late to get your All-Access Pass
Gain access to all CIRSE congresses, webinars and online education tools in 2021 for one low fee with the new All-Access Pass! Staying up to date on everything IR has never been easier. Or cheaper! The All-Access Pass can now also be purchased through group registration to enable your entire team to learn, share and connect with interventional specialists from around the world throughout the year!

Literally speaking
Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

Can you guess in which European language “**picking up the pigeons**” will tell you what someone is about to do?

Let us know a funny proverb in your language at communications@cirse.org!

IR vacancy of the month
If you are interested in a new challenge within the German speaking area, apply today for the position of head of radiology at the Asklepios Klinik Wandsbek in Hamburg!
To view this vacancy or add an open position from your institution, visit CIRSE's IR vacancy finder.

Let us know what matters to you!
If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

<input type="checkbox"/> Absolutely!	<input type="checkbox"/> Meh.
<input type="checkbox"/> Some of it.	<input type="checkbox"/> Sorry, I had nodded off.

Literally speaking – Answer
“**вдигам гълъбите**” (“I am picking up the pigeons”) is Bulgarian for saying that you are about to leave.
