

European Certification for Endovascular Specialists

Proof of advanced knowledge and experience in the field of endovascular therapy

Candidates are required to have completed at least 250 advanced IR procedures (in addition to the 150 vascular EBIR-required procedures, see table below) as primary operator. These advanced procedures may be solely either venous or arterial, or a combination of both. This must be verified by the Authorised Representative as listed in the form.

Procedure Reference

The corresponding subsections of the European Curriculum and Syllabus for Interventional Radiology, Second Edition, are indicated in brackets after each procedure.

Advanced Procedures

Arterial Procedures

- Complex iliac and SFA angioplasty and stenting (occlusions, heavily calcified lesions) [2.2.1.1.1]
- Infrapopliteal/pedal angioplasty and/or stenting [2.2.1.1.1]
- Arterial pharmacomechanical thrombectomy or percutaneous embolectomy [2.2.1.1.1]
- Arterial embolisation (all types including UAE, PAE, TACE, GI/bronchial/visceral, AVM) [2.2.1.1.1 to 2.2.1.1.9, 2.2.1.2]
- Aortic stent grafts (EVAR, TEVAR, FEVAR) [2.2.1.1.3]
- Carotid stenting [2.2.1.1.4]

Venous Procedures

- Venoplasty and/or stenting (central and peripheral) [2.2.1.3.1 to 2.2.1.3.3, 2.2.1.3.6]
- Venous pharmacomechanical thrombectomy [2.2.1.3.1]
- IVC filter retrieval [2.2.1.3.2]
- Venous recanalisation of chronic occlusions [2.2.1.3.1, 2.2.1.3.3]
- Venous embolisation (eg. gonadal veins, VM) [2.2.1.1.6, 2.2.1.3.5]
- Portal and hepatic venous interventions (eg. TIPS, BRTO) [2.2.1.3.4]

250 Minimum
(arterial and/or venous)

The required 250 procedures are to be completed since the candidate successfully passed the EBIR, and prior to application submission.
