

**ACCESS THE WORLD OF IR.
WHEREVER. WHENEVER.**

DIGITAL ALL-ACCESS PASS NOW AVAILABLE

The Digital All-Access Pass is the key to your IR education in 2022, allowing you to gain online access to ECIO, ET and CIRSE 2022, more than 10,000 titles via the CIRSE Library, as well as all CIRSE Academy courses and webinars throughout the year. In addition, pass holders enjoy strongly reduced onsite registration fees for the congresses. What's not to love? Get your Digital All-Access Pass today!

ECIO 2022 abstract submission extended

Didn't get around to submitting your work for ECIO 2022? Not to worry! The deadline to submit your scientific, educational, First@ECIO clinical trial or case report abstract to share it with the interventional oncology community has been extended to January.

ET 2022 abstract submission

Become part of the European Conference on Embolotherapy by submitting your abstract on one of many featured topics, including arterial, musculoskeletal, gynaecological, experimental work and much more. Submit your abstract by Feb. 17 to present your work live at the congress or in poster format!

Most viewed lectures of 2021

To look back on a fantastic year of CIRSE events, we have made some of the CIRSE Library's most viewed content from 2021 available free of charge, including the most popular lectures from the CIRSE 2021 Summit, ET 2021 and ECIO 2021.

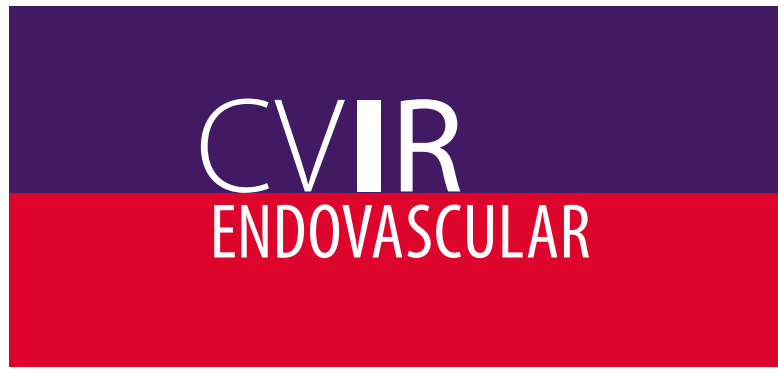

New course on EVAR

The CIRSE Academy is offering a new specialist course on the endovascular treatment of complex abdominal aortic aneurysms, ideal for those looking to further deepen their knowledge in this field. In addition, the course on colorectal liver metastases is again available with CME accreditation after having been updated.

CVIR

If you are looking for a good read to start the new year, make sure to check out CVIR EiC Klaus Hausegger's favourite articles from 2021. The list of 28 outstanding articles covers a wide array of topics and is available completely free of charge. Make sure to share your favourites on social media!

Author spotlight

CVIR Endovascular is passing the mic to its authors in its upcoming Author Spotlight video series. In the videos, authors will detail how they're hoping to move IR forward with their paper, whether by teaching a unique approach, improving patient outcomes, or shining light on an overlooked issue. Stay tuned and check our social media channels in the coming weeks!

Literally speaking
Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

Can you guess in which language someone might declare that something is **“the raisin at the end of the hot dog”** ?

Let us know a funny proverb in your language at communications@cirse.org!

Let us know what matters to you!
If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

Absolutely! Meh.

Some of it. Sorry, I had nodded off.

Literally speaking – Answer
“Rúsínan í pylsuendanum” is Icelandic for the best part of something.
