

JOIN US FOR CIRSE 2022!

This year's congress will certainly be one for the ages. Not only will it feature the most comprehensive programme to date, but it will also be the first in-person annual congress since the pandemic, finally reuniting the world's biggest IR community. Find out all about the more than 400 lectures, symposia, and workshops, and register today on the brand-new congress website!

CIRSE ELECTIONS 2022

The results are in and we are happy to announce CIRSE's Executive Committee and Standing Committees for 2022-2024!

Revisit ET 2022

The European Conference on Embolotherapy celebrated a superb comeback with a hybrid congress taking place onsite in Nice and virtually via its custom-made online platform. All 210 presentations and posters are still available to attendees and Digital All-Access Pass holders at et2022.cirse.org. In addition, the ET 2022 symposia can be accessed free of charge by all interested parties with the ET Technology Pass.

ECIO 2022 now in the CIRSE Library

ECIO 2022 reunited more than 1,100 interventional oncology experts from around the globe to discuss the latest data and developments regarding the fourth pillar of cancer care. All 350 presentations and posters from the congress are now available via the CIRSE Library, free of charge to all CIRSE members and Digital All-Access Pass holders. A fantastic resource for anyone involved in IO or wishing to get there!

EndoAVF webinar

The WavelinQ™ EndoAVF system is designed to create a fistula for haemodialysis access in patients who have chronic kidney disease and need dialysis, using a completely endovascular approach, in vessels that are not traditionally used during open surgery. Join this free webinar to learn how endoAVFs can fit into the patients' treatment algorithm, a question that will be discussed from various angles by a renown multidisciplinary faculty.

New Academy course

The CIRSE Academy now features its first ever course on the management of renal transplant complications, put together by Dr. Gonca Eldem and Dr. Emre Ünal. In addition, the course on uterine fibroid embolisation is now again available with CME accreditation after its revision by Prof. Viktor Bérczi and Dr. Krzysztof Pyra. All Academy courses are included in the Digital All-Access Pass, so make sure to get your pass today!

Global IR Juniors Summit

The European Trainee Forum, in cooperation with the SIR-RFS, the BSIRTS, and PAIRS, is inviting all interested parties to the Global IR Juniors Summit 2022 which will take place via Zoom on July 23, from 15:00-19:00 CEST to discuss contemporary IR-related topics of great relevance to physicians at the beginning of their careers.

Students' programme

CIRSE invites undergraduate medical students to attend CIRSE 2022 free of charge to learn more about one of the most dynamic, innovative, and rapidly growing areas of medicine. In addition to free congress registration, students can apply for €200 in travel support. Make sure to let your students know!

Making an impact

We are thrilled to announce that CVIR has increased its impact factor for a second consecutive year to 2.797. Many congratulations and a big thank you to the entire editorial board, our untiring peer reviewers, and our very innovative authors for their ongoing commitment to advancing IR!

Editor's Choice

Stent placement in the portal vein is sometimes unavoidable. However, there is a high risk of occlusion. Good patient selection and meticulous follow-up with early dilatation is mandatory. Read this article by Hirotsugu Nakai et al. to find out more about this technique!

IR vacancy of the month
 The Department of Radiology at the University of Washington is seeking a full-time radiologist interested in pursuing an academic career as an Assistant Professor, Associate Professor, or Professor without tenure (WOT) by reason of funding, commensurate with experience, in the Vascular and Interventional Radiology Section with a special focus on participating in our Interventional Oncology service line.

Literally speaking
 Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.
 Can you guess in which language someone might tell you "Where she married herself, here she married herself"?

Let us know a funny proverb in your language at communications@cirse.org!

Let us know what matters to you!
 If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

Absolutely! Meh.

Some of it. Sorry, I had nodded off.

Literally speaking – Answer
 "Kde se vzala, tu se vzala." is what a Czech person might say to express that a person appeared out of nowhere.
