

JOIN US FOR ET 2022!

The embolotherapy meeting of the year is around the corner and we are very excited to return to an onsite format to showcase everything embolisation has to offer. Physicians who cannot join us in Nice will be able to watch all sessions live via the congress platform and ask the presenters and moderators their questions in real time. As always, all sessions will also be made available for on demand viewing to all attendees. If you are not registered yet, make sure to purchase your Digital All-Access Pass which in addition to ET 2022 will give you online access to CIRSE 2022, the CIRSE Library, all CIRSE Academy courses and ECIO 2022 on demand.

Travel grants to attend CIRSE 2022

If you are the presenting author of a paper or poster that has been accepted for CIRSE 2022 and are under the age of 35, you might qualify for a €500 travel grant from the Rolf W. Günther Foundation for Radiological Sciences to attend the congress in person. Find out about all eligibility criteria and apply today!

EBIR exam in Spanish language

In an effort to make the European Board of Interventional Radiology (EBIR) available to as many interventionists as possible, CIRSE in collaboration with SERVEI is offering IRs the possibility to take the examination in Spanish this October. ¿Qué esperas? ¡Regístrate ahora!

Upcoming ESIR courses

The European School of Interventional Radiology will continue its programme after the summer with two-day courses, each focusing on a specific procedure and providing theoretical knowledge as well as case studies and hands-on training. This fall's courses will focus on radioembolisation of liver tumours, hands-on liquid embolisation and reliability in percutaneous tumour ablation. Places are limited, so secure your spot today!

New feature: Highlights in IR

Highlights in IR, the latest addition to the CIRSE Library, showcases a new interesting case every month, detailing clinical history, treatment and follow-up. Check out the first highlight submitted by Dr. Dimitrios Filippiadis, in which he details a case of cholangiocarcinoma in which the patient received microwave ablation as salvage therapy. To find out more about the CIRSE Library's many useful features, watch this video! .

How to get published – Tips and tricks from CVIR editors

Join our in-person session at ET 2022 on how to get your work published with tips and tricks from CVIR editors! Participants will receive practical advice from Editor-in-Chief Klaus Hausegger, Deputy Editor-in-Chief Raman Uberoi and Associate Editor Tiago Bilhim and will have to chance to ask them any questions they may have regarding their submission. This session is limited to 12 participants, so secure your spot now by writing to info@cvironline.org to register in time.

Get involved with the journal

CVIR Endovascular offers various channels for authors, readers and editors to engage with each other. Make sure to check out the latest blog post on prostate artery embolisation by Nariman Nezami and the latest author spotlight video featuring Colin Cantwell who tells us about his article on conventional angiography findings in hemodynamically unstable patients. If you are interested in contributing to one of these initiatives to present your publication, contact us at info@cvirendovascular.org.

Literally speaking
 Get to know some of the funnier aspects of the many languages spoken by our members in our new segment, where we take a proverb from somewhere in the world and translate it word for word into English.

 Can you guess in which language someone might tell you that **you cannot have a full wine barrel and a drunk wife?**

Let us know a funny proverb in your language at communications@cirse.org!

 **IR vacancy of the month**
 The School of Biomedical Engineering & Imaging Sciences is looking for a new Chair of Interventional Radiology and Honorary Consultant at King's College London and Guy's & St Thomas' Hospitals NHS Foundation Trust. Find out more and apply today!

 **Let us know what matters to you!**
 If you would like to share interesting news about your institution, research project or interventional radiology in general, let us know at communications@cirse.org!

Was the content of this newsletter relevant to you?

Absolutely! Meh.

Some of it. Sorry, I had nodded off.

Literally speaking – Answer
 “*Non si può avere la botte piena e la moglie ubriaca*” is what Italians say to remind you that you cannot have everything in life.
