ON DEMAND

EUROPEAN CONFERENCE ON EMBOLOTHERAPY

REVISIT ET 2023 ON DEMAND!

All lectures and symposia of the recently held European Conference on Embolotherapy continue to be available on demand via the congress platform. Watch the sessions you missed and revisit your favourites – more than 240 presentations await! If you do not have full access to the scientific programme, get your All-Access Pass today which will also let you join CIRSE 2023 online and at a strongly reduced price onsite. For those who would only like a peek at what the industry presented at ET 2023, the ET Technology Pass grants free access to all industry symposia.

Last chance to catch the opening fee

CIRSE 2023 is coming up fast, so make sure to register today and save up to 40% with the reduced early fees! To save even more money on onsite attendance and online education, get your All-Access Pass today! The pass will also let you access the more than 11,000 titles of the CIRSE Library and the CIRSE Academy's 50+ courses until the end of the year.

Join us for the fun

No CIRSE annual congress would be complete without its legendary Dinner and Farewell Party. This year will be no exception with a delicious four-course dinner and show awaiting you at Copenhagen's famous Wallman's Nightclub, followed by an open bar and dancing into the wee hours. Book your tickets today to catch the reduced entry fee!

Upcoming ESIR courses

This fall, the European School of Interventional Radiology will host courses on a variety of subjects, from thyroid thermal ablation to MSK and lung ablation to liquid embolization, and acute ischaemic stroke. Each of these two-day courses will include lectures by renowned international experts, video case discussions, and hands-on workshops. Register today to catch the early fees!

Take the EBIR in English or Spanish

There are still seats available to take the exam for the European Board of Interventional Radiology in English or Spanish this autumn! Sign up now and secure your spot for October 19, 2023 (application deadline: August 31). For tips and tricks on how to prepare for the exam, watch this video featuring some of the most successful candidates to date and check out the preparation material!

Young Investigator Award!

CVIR Endovascular is offering an award and waiver for the article processing charge to support young researchers. To be eligible, authors must have published an original article or review in 2021-22 and be within 10 years of completing their IR or vascular surgery training. Read more on how to apply here!

International IR survey

The SIR International Division is currently conducting a survey to help it understand global IR disparities in order to determine how to best utilize its resources in making IR available worldwide. It only takes a few minutes of your time to complete, and your contribution would be much appreciated!

New impact factor

We are happy to announce CVIR's 2022 impact factor of 2.9! The improved impact factor underscores the exceptional quality and importance of the articles published in the journal. A big thank you to the dedicated authors, reviewers, editors, and readers for their invaluable contributions and support. Find the latest articles here.

First impact factor

CVIR Endovascular is thrilled to announce its first impact factor of 1.2! The journal's new impact factor, one of many indicators of journal quality, is testimony to the hard work of its editorial team and its philosophy of open-access publishing being the future of research sharing. We would like to thank all authors, reviewers, editors, and readers for helping get the journal to this point. Check out our latest articles here!

In order to keep you updated on all of CIRSE's projects and initiatives year-round, the society newsletter has changed its format and will not be available online via the CIRSE Insider. Links to the in-depth interviews and articles will be brought to you every month via the e-newsletter, CIRSE's social media channels, and of course the CIRSE app!

ET in pictures

On Saturday, April 15, CIRSE hosted the second edition of the IO Foundation Course in advance of ECIO 2023 in Stockholm. This course provided young interventionalists interested...
