

Cardiovascular and Interventional Radiological Society of Europe

CIRSE FELLOWSHIP

FELLOW APPLICATION REQUIREMENTS

In line with articles 5.8 and 5.9 of the CIRSE Articles of Association, applicants for fellow and corresponding fellow status must fulfil the criteria set by the Executive Committee and listed in the CIRSE fellow application requirements catalogue. The present catalogue outlines all requirements to be met by future fellows and corresponding fellows. Information on the application process is provided on the CIRSE website.

Requirements to be met by future fellows and corresponding fellows

I. Education and membership

Candidates for fellow and corresponding fellow status need to fulfil all requirements outlined below.

- ✓ Completion of medical specialty training in radiology and/or interventional radiology, or other relevant medical specialty at **least five years ago**
- ✓ CIRSE member in good standing for at **least three years**

II. Endorsement

Candidates for fellow and corresponding fellow status need to fulfil all requirements outlined below.

- ✓ Have the endorsement of two fellows or one fellow and one corresponding fellow

III. Academic track record

Candidates for fellow and corresponding fellow status need to fulfil all requirements outlined below.

- ✓ **Published at least five articles** on a cardiovascular and interventional radiology topic in **internationally recognised peer-reviewed** scientific journals with an **impact factor**, having been the **first author** of at least one of these five articles. One article must have been published in **CVIR or one of CVIR's associated journals** with an impact factor. Case reports and letters to the editors are excluded.

IV. Contributions to CIRSE

*Candidates for fellow status need to **fulfil at least two of the requirements** outlined below.*

*Candidates for corresponding fellow status need to **fulfil at least one of the requirements** outlined below.*

FELLOW APPLICATION REQUIREMENTS

Reviewing or writing contributions

CIRSE Journals	Reviewed 10 or more manuscripts	If you have performed any reviews for CVIR or CVIR Endovascular since 2018, you can list the total number of reviews you performed. Do not name the actual article you reviewed.	For further information or a confirmation of your activities, please contact info@cvironline.org .
CIRSE Events	Served as abstract reviewer for at least five CIRSE events	If you have served as an abstract reviewer for at least five CIRSE congresses since 2018, you can request a confirmation of your activity from the Scientific department.	For further information or a confirmation of your activities, please contact scientific@cirse.org .
CIRSE Academy	Written or reviewed two or more courses	If you have reviewed or written a (published) CIRSE Academy course since 2018, this course can be listed in your application. If they are still online, you may also link them in your application.	For further information or a confirmation of your activities, please contact online.education@cirse.org .
CIRSE Library	Compiled three or more topic packages	If you have compiled topic packages for the CIRSE Library since 2018, please list these topic packages in your application. If they are still online, you may also link them in your application.	For further information or a confirmation of your activities, please contact online.education@cirse.org .

FELLOW APPLICATION REQUIREMENTS

Reviewing or writing contributions

EBIR	Written 10 accepted A-Type or four accepted F-Type questions for the EBIR (or combination)	If you have contributed to the EBIR examination in terms of question production since 2019, you can list the total number of A/F type accepted cases you contributed. Only accepted questions will be considered. Do not quote the actual cases you submitted.	For further information or a confirmation of your activities, please contact ebir@cirse.org
CIRSE documents	Co-authored at least two CIRSE SOP or CIRSE documents (such as position statements, white-papers, etc.)	If you have co-authored CIRSE Standard of Practice documents or other published CIRSE statements, whitepapers, etc., you may list these in your application. If they are still online, you may also link them.	For further information or a confirmation of your activities, please contact sop@cirse.org
Additional publications in CIRSE journals	Additional to the mandatory scientific requirement, four publications in a CIRSE Journal (CVIR, CVIR Endovascular) as author or co-author	If, in addition to the criteria relating to your academic track record, you have published several articles in CVIR or CVIR Endovascular – as an author or co-author – you can list them in your application.	For further information or a confirmation of your activities, please contact info@cvironline.org .

FELLOW APPLICATION REQUIREMENTS

Organisational contributions

ESIR	Having been a local host of at least one ESIR course	If you have hosted an ESIR course in your institution, you can list the ESIR course including the exact date, topic and location in your application.	For further information or a confirmation of your activities, please contact office@esir.org
CIRSE Webinars	Having been programme coordinator of at least two CIRSE Webinars	If you have coordinated a CIRSE webinar since 2019, you may list them in your application.	For further information or a confirmation of your activities, please contact online.education@cirse.org
CIRSE Committees	Having served a full term of office on a CIRSE standing committee, subcommittee, SPC or task force	If you have served a full term of office on a CIRSE committee since 2016, you can list the committee and your term of office in your application.	For further information or a confirmation of your activities, please contact boardrelations@cirse.org
Research	Having been involved as coordinating investigator or steering committee member in at least one CIRSE research study or Next Research project	If you have been involved in a CIRSE or Next Research clinical research project as coordinating investigator or steering committee member, you can list the study and your exact role in the application.	For further information or a confirmation of your activities, please contact info@nextresearch.org
