Last chance to catch the opening fee

Don't miss the opportunity to save up to 60% on registration for CIRSE 2024 – register by June 20 to catch the strongly reduced opening fee! To find your perfect accommodation in Lisbon, make sure to book through CIRSE's official travel partner Buzz Portugal. The interactive hotel map will let you find the ideal room at the most competitive price.

Travel grants to attend CIRSE 2024

Young interventionalists from Europe whose paper or poster has been accepted for presentation at CIRSE 2024 are invited to apply for a Rolf W. Günther Foundation travel grant worth €500 towards travel and housing expenses to attend CIRSE 2024. Check the application criteria and make sure to apply by June 17!

Webinar on clinical practice

Join us for the upcoming webinar to get your clinical practice up to speed! In addition to analyzing the results of CIRSE's recent survey about clinical practice, the 90-minute webinar will provide useful information about patient assessments and examinations, with a focus on the specific considerations for vascular versus interventional oncology patients. This will be supplemented by audience polling and interactive discussions to facilitate learning and engagement. Register free of charge today!

Submit your AI work for CIRSE 2024

For the first time, the CIRSE Annual Congress will host a dedicated area within the exhibition to highlight and educate on AI and other emerging technologies in IR. "SPHAIRE" will feature panel discussions about all major topics in the field. For this purpose, its steering group is inviting MedTech companies, AI software developers, academic research groups, and enthusiastic AI engineers to submit their abstract on AI or other emerging technologies in IR for review and a chance to present or exhibit within the SPHAIRE.

Thank you for joining us at ET 2024

CVIR hosted another fun challenge at ET 2024 asking participants questions about the journal for a chance to win free registration for CIRSE 2024. In addition, there was an instant feedback session and a workshop for the best-rated abstract presenters of ET 2024. The CVIR team is already planning many more fun activities for CIRSE 2024, so make sure to visit us at our booth there!

Young Investigator Award

CVIR Endovascular is offering a waiver to support young researchers, enabling them to publish their paper open access in the journal free of charge. To be eligible, authors must have published a review or original article in 2022/23 and be within 10 years of completing their IR or vascular surgery training. Click here to find out more about the requirements and apply today!

Preparation is half the battle

Are you planning to take the EBIR exam? Boost your preparation with our collection of recordings in English, German, Spanish, and soon also Italian. Covering key aspects and essential techniques, these videos are a must-do for your study plan. Visit the exam information page in the CIRSE Library to access these invaluable resources and take the next step towards certification!

Two-day course on PAE

Only a few spots remain for the upcoming ESIR course on PAE taking place from July 4-5 at the Princess Alexandra Hospital in Harlow, UK. This comprehensive course will include theoretical sessions, video case discussions, and extensive hands-on training. To learn more, read the CIRSE Insider interview with host Dr. Zaid Aldin. To register, click here!

Im memoriam Prof. Rita Golfieri

The interventional radiology community lost a friend, colleague, and beloved mentor with the too-early passing of Prof. Rita Golfieri.

The CIRSE Newsletter has a new format

In order to keep you updated on all of CIRSE's projects and initiatives year-round, the society newsletter has changed its format and will not be available online via the CIRSE Insider. Links to the in-depth interviews and articles will be brought to you every month via the e-newsletter, CIRSE's social media channels, and of course the CIRSE app!

A look back at the embolotherapy meeting of the year

ET 2024 took place in Vienna at the start of June this year, bringing together experts from around the globe for four days of exciting lectures and productive discussions on this vital aspect of IR. Look back at the congress in pictures!
