CIRSE

About CIRSE

Cardiovascular and Interventional Radiological Society of Europe (CIRSE) is a non-profit, scientific and educational society founded in **1985**

CIRSE has a global network and community of over **44,000 health care professionals**, with over **9000 academic members**

Our mission is to improve **patient care** through the **support of education, science, research, and clinical practice** in the field of IR

And support IR's **next generation...**

Find out more at cirse.org

Medical students

Residents, trainees and junior IRs

CIRSE Student Programme – What do we offer?

- Student Membership
- Free congress registration to all CIRSE meetings (CIRSE, ECIO, ET)
- Student internships at IR departments in Europe
- Webinars on basic IR procedures
- Research materials for students (reports, papers and IR curricula)
- Educational videos
- Networking with junior and senior IRs
- Joint activities and events with the [CIRSE European Trainee Forum](https://www.cirse.org/training/CIRSE-European-Trainee-Forum)

The logo for the CIRSE Student Programme is displayed within a dark blue square. The word "CIRSE" is written in large, white, sans-serif capital letters. Below it, the words "STUDENT" and "PROGRAMME" are written in smaller, orange, sans-serif capital letters, stacked vertically.

CIRSE
STUDENT
PROGRAMME

Find out more at [cirse.org/students](https://www.cirse.org/students)

CIRSE student membership – join the CIRSE family!

What are the main benefits?

- ❑ Free access to CIRSE's official journals [CVIR](#)
- ❑ Free video streaming via the [CIRSE Library](#)
- ❑ Fast track registration for all CIRSE events

Eligibility criteria?

- ❑ To be enrolled in the first undergraduate degree that started less than 8 years ago

Find out more at cirse.org/students

CIRSE student MEMBERSHIP

CIRSE offers membership at a highly reduced fee for currently enrolled medical students who began their studies no more than eight years ago!

Enjoy full access to the CIRSE journals, CVIR and CVIR Endovascular, stream videos from past CIRSE congresses via the CIRSE Library, and benefit from fast-track registration for all CIRSE congresses!

APPLY FOR
THE STUDENT
MEMBERSHIP
TODAY!

Submit your CV, a confirmation of current enrolment signed and stamped by your university, and a short motivational statement to apply for CIRSE Student Membership!

For more information about CIRSE membership categories and how to apply on the right! Visit cirse.org or scan the QR code.

We look forward to receiving your membership application!

CIRSE

Cardiovascular and Interventional Radiological Society of Europe

Access the CIRSE Library with your Student Membership!

Your Student Membership allows you to access all content on the CIRSE Library, including all lectures from webinars and CIRSE Congress.

Not sure where to start?

Check out the **Student Programme** sessions that are targeted at students who want to know more about interventional radiology

CIRSElibrary

A screenshot of the CIRSE website's Student Programme page. The header features the CIRSE logo and the tagline 'INNOVATION | EDUCATION | INTERVENTION'. Below the header, a paragraph explains the purpose of the student programme. The main content is organized into four color-coded sections: CIRSE 2024 (blue), CIRSE 2023 (teal), CIRSE 2022 (orange), and CIRSE 2021 SUMMIT (green). Each section lists specific sessions with titles like 'ST 116 - Introducing IR' and 'ST 354 - Students on stage', along with session numbers and links to the full programme. The bottom of the page has a yellow bar with the text 'IR MANAGEMENT'.

Student Programme at CIRSE 2025

- Free Congress Registration + Travel Support Grant
- Introducing IR Lecture
- Recommended scientific sessions & talks
- Global IR Juniors Summit
- Students' exclusive HDT and Simulation Trainings
- Workshops in cooperation with corporate partners
- Students on Stage session
- Social Events: Get-together Event, Mentoring Event, Students' Evening, Students' Quiz
- Students' section in the CIRSE Event App

This unique congress experience will provide you educational, engaging & fun IR-related sessions and events!

The logo for the CIRSE Student Programme is displayed within a white rectangular border. It features the word "CIRSE" in a large, white, sans-serif font. Below it, the words "STUDENT" and "PROGRAMME" are stacked vertically in a smaller, orange, sans-serif font.

CBCT Accuracy Experiments

Difficult to Determine Treatment vs Target

Healthy

Use healthy swine given the expense and relative lack of large animal tumor models

Case 3

Pre-Treatment (pseudotumor)

Post-treatment (over-treatment)

Distinguishing pseudotumor and large treatment is difficult

Histotripsy Pseudotumor Treatment

Large Histotripsy Treatment

- Use a **small** histotripsy treatment as the target
- Perform a **larger** histotripsy treatment over the target

→ Difficult to distinguish between what is target and what is treatment, especially with perfusional changes from both

Saturday-Tuesday

Why you should be a part of the CIRSE Student Programme?

- Deepen your knowledge of IR
- Get to know other medical students
- Meet leaders in IR
- Learn different methods & possibilities of IR practice through Hands-on device training
- Get inspired by different IR career paths

Interventional Radiology Curriculum for Medical Students

This curriculum is designed to make medical students aware of the ever-increasing role of interventional radiology in hospital medicine. It aims to support medical students planning on pursuing a career in IR and those who may participate in a multidisciplinary approach to patient care in the future.

Scan the code to download the curriculum for free at [cirse.org](https://www.cirse.org)
