Women in IR workshops

Following the great success of the Women in IR workshop at CIRSE 2024, two further workshops led by an experienced executive leadership coach will be offered at CIRSE 2025. The highly interactive sessions will focus on empowering female IRs to exude confidence, command attention, and captivate an audience when sharing ideas or managing high-stress situations. Find out more and apply here!

Upcoming courses

The European School of Interventional Radiology has a fantastic lineup of courses coming up. By popular demand, another course on PAE will be held at Milan’s AIMS Academy. From Sept. 25-26, a course in an entirely new format hosted in cooperation with IASIOS will delve into the intricacies of the modern tumour board. In October, a course on thyroid thermal ablation will offer an immersive exploration of this increasingly important treatment. Browse all courses here!

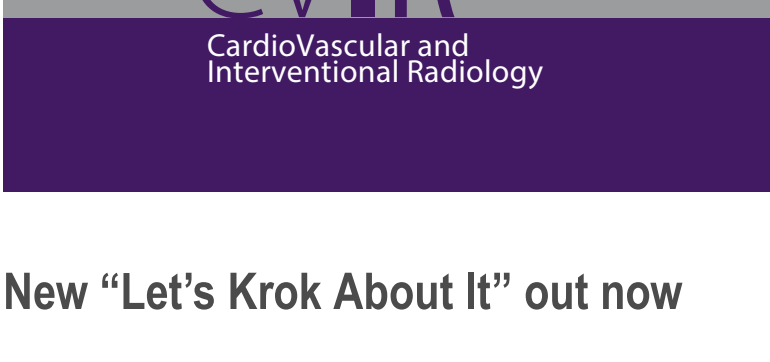

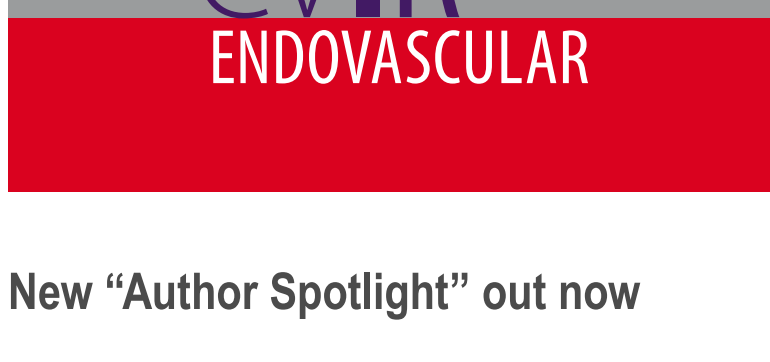

Throw your hat in the ring

Have you or your team developed a new technique, created cutting-edge technology, or published new research which have made a significant contribution to IR? Then make sure to submit your application for the Award of Excellence and Innovation in IR! The winner of this prestigious distinction which comes with a cash prize of €6,000 will be awarded at the CIRSE 2025 opening ceremony.

Explore the first articles

CVIR Oncology, the newest member of the CIRSE journal family, has published its first articles! In case you missed it, read all articles here! If you have an interesting case, a novel technique, or a new study to share, consider submitting your work to CVIR Oncology to reach like-minded interventional oncologists and help shape the journal into a leading platform for advancing the field of IO!

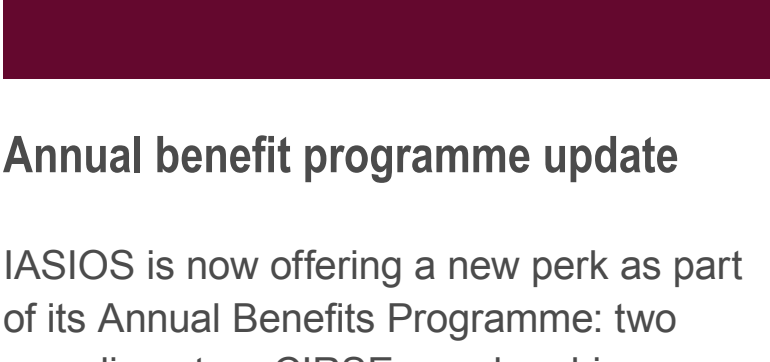

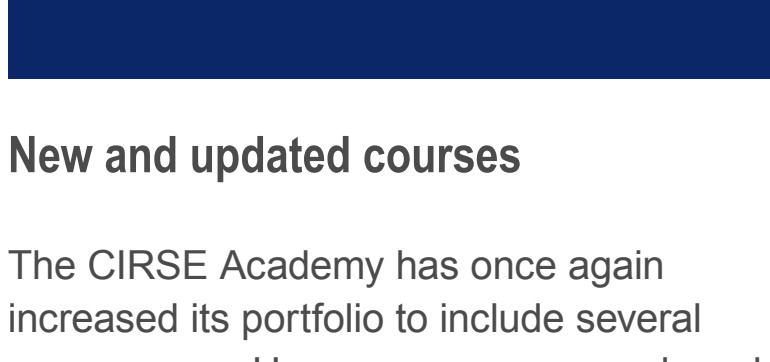

New “Let’s Krok About It” out now

Check out the latest instalment of “Let’s Krok About It”, CVIR’s interview series featuring Dr. Miltos Krokidis diving into the latest research published in the journal. In this episode, Dr. Contantinos Sofocleous discusses his pilot prospective observational study on systemic immunological changes after Yttrium-90 radioembolization. Don’t miss this expert insight!

New “Author Spotlight” out now

Make sure to watch the new episode of CVIR Endovascular’s interview series featuring the researchers behind the latest studies published in the journal! In this instalment, Thijs Engelen discusses his paper, “Percutaneous Closure Device Controlled INCRAFT Stentgraft Implantation Registry (PUCCINI)”. A must-see for anyone involved in PEVAR.

Annual benefit programme update

IASIOS is now offering a new perk as part of its Annual Benefits Programme: two complimentary CIRSE memberships - one for a radiographer and one for a nurse from each IASIOS centre! CIRSE membership grants cheaper onsite access to all CIRSE congresses as well as access to the CIRSE Library, the CIRSE Academy, and the society journal CVIR year-round, helping your team stay engaged with the latest in interventional oncology! To claim this benefit, email the IASIOS office at [office@iasios.org](mailto:office@iasios.org)

New and updated courses

The CIRSE Academy has once again increased its portfolio to include several new courses. Users can now access brand-new material on lymphatic embolization, clinical practice in IR, and venous sampling. In addition, the courses on TEVAR, TIPS, and imaging for IR planning have been updated. To browse all courses, [click here](#). Don’t have access to the CIRSE Academy yet? Get your All-Access Pass today!

For all interested parties wishing to learn more about CIRSE’s projects and initiatives, CIRSE Insider provides in-depth articles and interviews on everything going on within the society. Click on the links below to find out more!
